## “Excellence Speaks!”

*Communication Skills for High-Stakes Presentations  
That get RESULTS*

Speaking in public is one of the BEST ways for Executives and Thought Leaders to make an impact. Yet many speakers can be bland or pushy or just say more than the audience wants to know. (Sometimes more than the audience *should* know.)

As a Leader do you...

- Find it hard to translate your **Leading-Edge Ideas** to mainstream listeners?
- Share your **Inner Worries** with people who don't need to know?
- Talk about **What** your company is doing rather than **Why They Should Care?**

Join Elizabeth Bachman in this customized training as she shares her 30+ years of expertise in moving an audience to take action. Elizabeth shows you specific exercises and techniques including:

- **The 3 Biggest Reasons** even Smart, Savvy Presenters **Don't Get the Results they Want**
- Why **Compelling Delivery** is the **Key to Success**
- How to **Feel at Ease in Front of Any Audience**

This experience will stay with you every time you present, bringing you **Funding, Allies** and **Recognition**.

**Elizabeth Bachman** is passionate about helping people shine on *any* stage. Using her 30 years of experience as an International Opera Director, directing such luminaries as **Luciano Pavarotti & Placido Domingo**, she now works with business professionals, authors & speakers to help you find your unique voice, stand in your power and show the world the Star that you are.

A sought-after speaker, she has presented at Bank of America, Turner Construction Co, and many others. She can be heard on podcasts along with Dr. Ivan Meisner & Steve Forbes.

Fluent in 5 languages, Elizabeth has directed over 50 operas around the world, giving her a wealth of tools to help business professionals become **Super Star** presenters.
